Art Unit: 1648

Claims 1-10 and 15-17 were canceled by preliminary amendment. Claims 11-14 and 18-24 remain pending and subject to restriction as follows.

Restriction to one of the following inventions is required under 35 U.S.C. 121:

- I. Claims 11-14 and 18, drawn to nucleic acid, vector, expression system, method of use, classified in class 536, subclass 23.72, e.g.
- II. Claims 19-21, drawn to method of detecting hepatitis E infection and kit, classified in class 435, subclass 5.
- III. Claims 22-24, drawn to vaccine and method of immunizing, classified in class 424, subclass 189.1.

The inventions are distinct, each from the other because of the following reasons:

Inventions I and III are related as process of making and product made. The inventions are distinct if either or both of the following can be shown: (1) that the process as claimed can be used to make other and materially different product or (2) that the product as claimed can be made by another and materially different process (MPEP § 806.05(f)). In the instant case the product can be made synthetically or by isolation from natural sources, for example.

The methods of Inventions I, II, and III are patentably distinct methods, requiring different reagents and different process steps and having different goals and outcomes.

Because these inventions are distinct for the reasons given above and have acquired a separate status in the art as shown by their different classification, thus requiring separate and different searches, restriction for examination purposes as indicated is proper.

Art Unit: 1648

Applicant is advised that the reply to this requirement to be complete must include an election of the invention to be examined even though the requirement be traversed (37 CFR 1.143).

Applicant is reminded that upon the cancellation of claims to a non-elected invention, the inventorship must be amended in compliance with 37 CFR 1.48(b) if one or more of the currently named inventors is no longer an inventor of at least one claim remaining in the application. Any amendment of inventorship must be accompanied by a request under 37 CFR 1.48(b) and by the fee required under 37 CFR 1.17(i).
